About the Programme:

T R K Singh with his vibrant team demonstrated effective Communication. He showed how to express the problem. He advised to ignore problems like grammar and vocabulary that hamper fluency. He advised to manifest empathy in body language during the speech. He suggested some tips to follow-repeating what is told, asking questions, using appropriate language and asking feedback. He felt animating voice is as important as content itself. It imparts variety, avoids monotony and captures persistent attention of audience.

The single biggest problem in communication is lack of confidence.

Communication - the human connection - is the key to personal and career success.
