# Recreate Youth Skills Post Pandemic

The COVID-19 pandemic has reached a scale that could hardly have been anticipated one year ago. As young people continue to showcase their resilience during this crisis, SDMSMK is asking youth to share videos of which skills they think will be most important in the post-pandemic era. These stories will be featured in a global campaign to mark World Youth Skills Day on 15 July.

## Tips for recording your video (60 - 120 seconds)

1. Record in a well-lit place.
2. Test the sound. Film for a few seconds and listen to the video to make sure the sound is good. Make sure there are no noises around you or other people speaking at the same time.
3. The video must be in horizontal and make sure that the person speaking is always in the center of the frame.
