

Secrets of Elements in Every Day Life and Their Role

Preamble:

Arranged a seminar on **Secrets of Elements in Every Day Life and Their Role** on 06-02-2020.

Participants:

120 students of Chemistry.

Resource Persons:

1. Prof.T.Sri Kumar, Dept of Physics,Andhra Loyola College, Vijayawda, Co-ordinator (Science and Technology),Jana Vignana Vedika, Vijayawada.
2. Sri.K.Srinivas, National Executive Member, All India Peoples Science Network (AIPSN).
3. Sri.V.Siva Prasad, City President,Jana Vignana Vedika, Vijayawada.

Description of the Programme:

On the occasion of 150 years of Periodic Table invention & 100th year of IUPAC, organised a seminar on “Secrets of Elements in Every Day Life and Their Role”. The resource person explained the importance of each and every element in the periodic table in our daily life. He also explained the biological importance of some elements and their role. He cautioned the students by explaining the deficiency effects of some elements and vitamins also.
