Report:

A seminar was arranged on Mathrubhasha –Avasyakatha on 01-03-2015.The guest addressed the students on “The Importance of Mathru Bhasha and Personality Development”. He also said that every person should protect his/her Mother Tongue. Mother tongue is the most conveniently learnt language. A child learns the mother tongue very fast just because he is not compelled, not assessed or not corrected by anybody. He learns the language in a free atmosphere with least interference and it is astonishing to see a child learn tens of words in just a few days. Nobody formally taught us to speak our mother tongue and we are all so well versed in it. Thus anything taught in our mother tongue will also be grasped faster.
