

## FACULTY DEVELOPMENT PROGRAMME ON DATA SCIENCE & BIG DATA ANALYTICS

**DATE** : 13-11-2017 and 17-11-2017

**RESOURCE PERSON** : Sri. Shanmughavel. S, Training Manager, ICT Academy, Chennai.

### DESCRIPTION OF THE PROGRAMME

The Resource Person explored that Data Science and Big Data Analytics are exciting new areas that combine scientific inquiry, statistical knowledge, substantive expertise and computer programming. One of the main challenges for businesses and policy makers while using big data is to find people with the appropriate skills. Data Science requires experts who combine practical knowledge with Data Analytical skills, which makes it a prime area for social scientists with an interest in quantitative methods. He concluded by saying that students from any field can acquire the fundamentals of Data Science or working with typically large datasets and databases with some basic training in quantitative analysis and computer programming.
