Dr. K. Sarala

TOPIC: Importance of Telugu language in today's world

Dr. K. Sarala gave a talk that the Telugu language, with a rich history of about 2,500 years, is vital to the identity of its people. Despite being the third most spoken language in India and 15th globally, there are concerns about its potential endangerment due to global pressures. The preservation of Telugu is crucial for maintaining the cultural and communal identity of the Telugu people.
