Dr. G. JYOTHI, Department of Mathematics

Topic: How to publish in esteemed journals.

Ms. Jyothi gave some insights of how to publish in reputed journals. Firstly, one has to choose a journal that fits his/her research scope and follow its guidelines closely. One needs to present original, wellsupported findings with clear, concise writing. She also stressed that it is important to be open to peer review feedback and be willing to revise whenever any recommendations are made. Finally, she concluded that any researcher has to ensure that the work adheres to ethical standards and contributes meaningfully to the field.
