Ms.M. Swetha, Department of Computer Science

Topic: Different Applications Used in Teaching

Ms. Swetha, explained various on-line tools such as Semrush which is vastly useful for SEO and online visibility, while Typeset.io helps format academic papers. Quill Bot is a handy tool for paraphrasing, and Heuristica offers analytics for research. Paperpal assists in improving academic writing, and Screen capture allows easy screen recordings. OBS (Open Broadcaster Software) and Loom both record videos for tutorials and presentations. Canva is a popular design tool, and Prezi offers dynamic presentations. Mentimeter and Slido create interactive polls and Q&As, perfect for engaging audiences. For English learning, 'Speak English with Vanessa' and 'English with Lucy' provide helpful lessons. Sivi designs visual content, Open Talk is a conversational platform, and Discord supports real-time discussions in communities.
