

**DEPARTMENT OF COMPUTER SCIENCE**  
**STUDENT INDUCTION PROGRAMME**  
**TOPIC: AWARENESS ON LEARNING MANAGEMENT**

**Date** : 7<sup>th</sup> April, 2021

**Objective of Student Induction Programme:**

The objective of the student Induction Programme is to make the students aware of the Learning Management System and its importance.

**Resource Person :** **Ch. Vasavi, III B.SC (HONORS),**  
A Senior Student of SDMSMK.

**Description of the Programme**

The Student Induction Programme engages the new students as soon as they come into the institution before regular classes start. Student induction programme is conducted on “Learning Management Systems”. The objective of the student induction program is to make the students understand the different sources of learning.

Senior student Ch.Vasavi spoke on different learning sources provided by our college. LMS focuses on online learning sources. An LMS delivers, manages all types of content including videos, ppt, documents, online text books related to academics. She also shared how LMS helped them to gain knowledge and cope up with the subjects in this pandemic situation. She also discussed how to coordinate with the teachers and improve knowledge of the subject.

This programme made students understand the importance of LMS. This is the platform where students can enhance their knowledge and learn by themselves. This makes students solve problems on their own. They can assess themselves by actively taking part in interactive activities conducted by their teachers.

**Presentation by Ch. Vasavi**
