

STUDENT INDUCTION PROGRAMME

AWARENESS ON MOOC's

Date : 30th March, 2021

Objective of Student Induction Programme:

The objective of the student Induction Programme is to make the students aware of the various online certificate courses and their importance to gain extra credits during the regular undergraduate programme.

**Resource Person : SK. TASLIMA, III B.SC (HONORS),
A Senior Student of SDMSMK.**

Description of the Programme

Students were given detailed information regarding the different online platforms provided by MOOC's. They were also enlightened on the process of joining these courses and completing them through self-learning.

The senior student shared her experiences in completing different courses and explained the opportunity to learn new skills in an affordable and flexible way through the course materials, such as filmed lectures, readings, and problem sets provided by MOOC's. She also added that these Free Online Courses help students bridge the gap between college graduate and employee.

This Programme made students understand the importance of MOOCs as the platform where they can enhance their knowledge and learn new technologies.
