2. Objective of the Program

Events cause changes in the state of the system, while the state is what defines the system at any given moment. Both are crucial in their own terms and form the basis of our understanding and operation of complex information systems.

They play a crucial role in fostering community engagement, providing opportunities for social interaction, and creating memorable experiences. Good events involve careful planning and coordination to ensure a seamless and enjoyable experience for participants.

3. Description

Every year the Department of Computer Science organizes Inter Collegiate Technical Fest. The students participate competitively in it and are eager to record their achievements & accomplishments in their resumes. The aim of the fest is to provide a platform for the students to showcase their talents. Students from various colleges participated in different events and made it successful. A poster on **TECHSPARKS-2K24** was released in advance to publicize the event.

Techno Fiesta: Techno Fiesta is a quiz where 400 students participated. It is a mind game which tested student's technical knowledge. The competition has 2 Rounds. In the first round students answered 20 logos, tagline, expansions and word arrangements in 20 minutes. In the second round students answered 10 questions on Technical questions in 10 minutes.

Tech Blind "c": It is a technical event on C/Python language to test student's coding skills. The program was described to the students. Later the students wrote the program and executed the program.

Insignia (Logo Making): The participants have designed an effective logo to promote public identification and reorganization. The topic for this event was given on the spot for the participants.

Stud-Weber: Stud-Weber is a technical event where participants suggested innovative solutions to tackle sustainable webpage design. The students are interested in unleashing their creativity, push boundaries, and craft stunning digital experiences that captivate and innovate in webpage designing.

Predicament: Predicament is a real-time challenging game in which the participants should solve the given puzzles in a given time. This game enhances the mental ability of the participants and also projects the capability of an individual to solve the problem

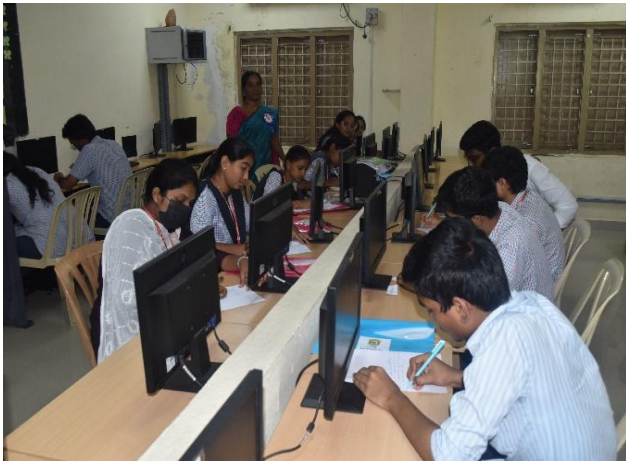

Game Miniature: Game Miniature is a designing game in which the participants should build and bring a real-world game model and make the participants to play. This game projects the creativity of the participants by making a game model design.

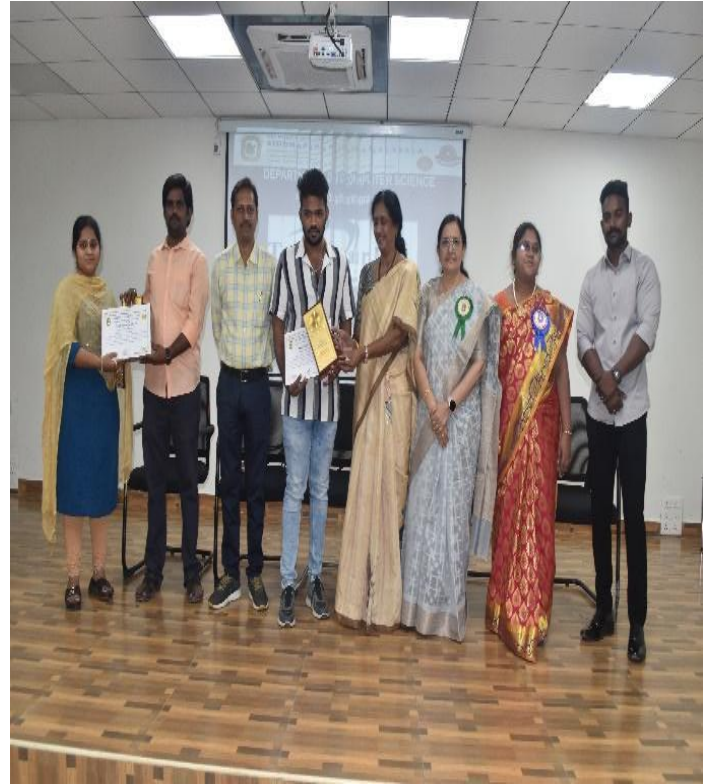

Dumb Act: Dumb act is an acting game in which the participants should act **without dialogue**. Acting dumb is a term that is often used to describe a situation without speaking. This game projects the acting skills of the participants sans dialog.

Short Film/Reel : Short Film/Reels is an event where students prepare short films of high quality. This game projects the creativity of the participants. The participants brought their own short film and played it to the judges.

9. Feedback on the Program:

We are thankful for all event organizers and **Dr. S.Kalpana**, Principal, **Dr.R. Madhavi**, Special Officer, who presided over the function, and **Smt M. Praveena**, HOD, Computer Science also shared the dais.

We are thankful to the judges for the **Competition – INSIGNIA, Short Film/ Reel, Stud-Weber, Techno Fiesta, Predicament, Game Miniature, Tech Blind C, Dumb Act** in the State Level Technical Event **TECHSPARKS – 2K24** and made it a grand success. The fest provided opportunities for social interaction, and creating memorable experiences. The events ensured a seamless and enjoyable experience for participants. Overall, the program was well-received, with participants expressing gratitude for the valuable guidance and the opportunity to engage with event organizers.
